

Vatika Business Centre Embarks on Pune Expansion

 PUNEINSIGHT • OCTOBER 30, 2023 • 1 MINS READ • 36 VIEWS

Vatika Business Centre (VBC) is one of the oldest and most stable players in the flexible office space industry spread across 8 metropolitan cities of India. In Pune, they currently have two business centres at Viman Nagar and Yerwada which are spread across a sprawling 80,000 sq. ft. offering 1100+ seats.

Looking at the prolific success over the last 4 years in Pune alongwith the current increased demand and queries for flex spaces they are aggressively looking forward to launching 2 more centres in Baner and Viman Nagar adding up another good 80,000 sq. ft. of ergonomically designed premium office spaces.

The pandemic had grappled many businesses with uncertainty, but now that the market has started picking up and the current demand and queries have also risen VBC is ready to hit the market hard as part of its ambitious growth strategy with expansions all across. Apart from Pune, they have just signed two more centres in Bengaluru and NCR adding to their current portfolio pan India.

Elaborating on the company's resilience and vision for the future, CEO, Mr. Vineet Taing, said: "The Indian office space market has displayed remarkable resilience and stability in the country. Our ability to adapt, innovate, and continue serving our clients has been the bedrock of our success. Furthermore, we have been offering 'Core + Flex' services to all our clients which is a fusion between traditional office spaces and flexible office spaces. Once the covid had started receding, we had a vision to add approximately 1.5 – 2 lac sq. ft. to our existing portfolio across India. Hence, the decision to expand our presence in Pune, Bengaluru and NCR aligns with our vision and to provide world-class, flexible office spaces to professionals and businesses seeking a conducive work environment."

Vatika Business Centre continues to revolutionize the workspace industry by offering flexible and premium solutions that enable businesses to thrive. The launch of these two new centres in Pune is a witness to VBC's mission to redefine workspaces and provide world-class amenities that resonate with the evolving needs of the industry.
